

cleverbricks

Pragmatic, Engaging and innovative Services

AI-POWERED DEVELOPMENT

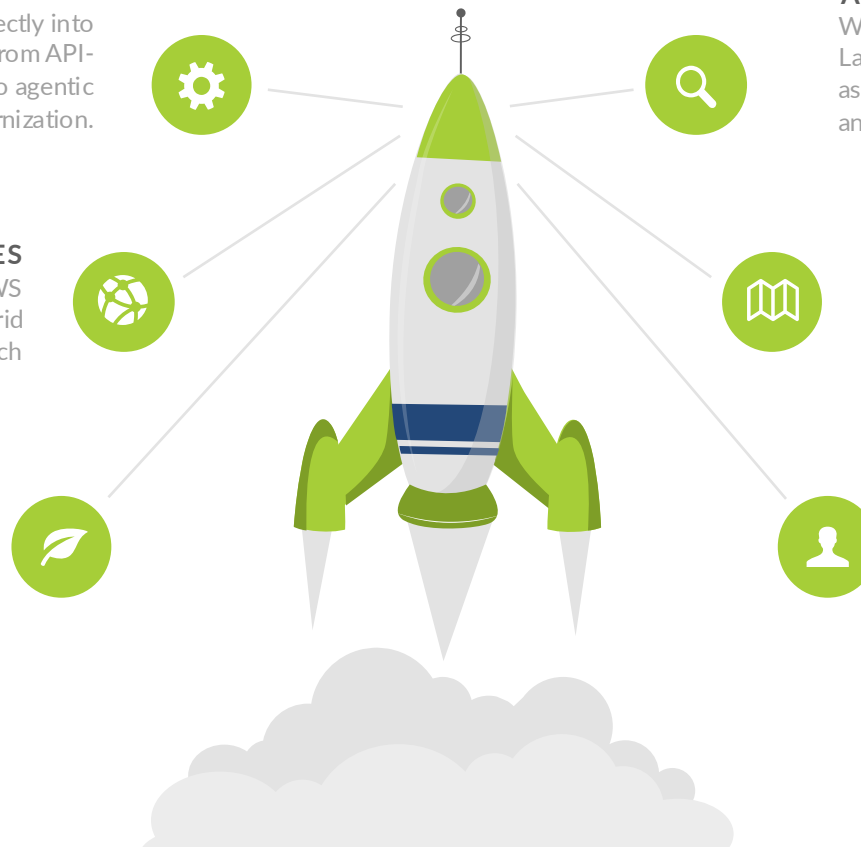

We integrate Anthropic's Claude directly into applications and agency workflows from API-based AI feature development to agentic automation and legacy code modernization.

CLOUD MIGRATION SERVICES

Migrate agency workloads to AWS GovCloud, Azure Government, or hybrid environments, with a structured approach

AI SOLUTIONS & INTELLIGENT AUTOMATION

Deploy AI agents, automate repetitive federal workflows through RPA, and implement intelligent document processing for contracts, forms, and regulatory filings

DATABRICKS & LAKEHOUSE ANALYTICS

We architect and deploy Databricks Lakehouse solutions that unify those data assets into a single, governed platform for analytics, reporting, and AI

DIGITAL TRANSFORMATION

Modernize legacy systems and adopt agile delivery practices, navigating the policy, regulatory, and organizational complexity that makes government transformation uniquely challenging.

ADVANCED ANALYTICS & MICROSTRATEGY

As a certified MicroStrategy partner, we implement, migrate, and operate enterprise BI environments for federal agencies on MicroStrategy Government Cloud
